

Travel immunisation questionnaire

- Please complete this questionnaire (one for each traveller) and return to the surgery or fax it to us on 298 5123.
- The nurse may ask you to go for a blood test.
- We will then assess your requirements.
- Don't delay sending us the questionnaire because some immunisations need to start weeks before you depart and immunity may not be effective until 2 weeks after administration..
- After receipt of your questionnaire and blood test, the practice nurse will contact you to tell you what immunisations may be required and the cost and arrange an appointment.
- There is a charge for this service, plus the cost of vaccines if any.
- If you have access to internet, go to www.fitfortravel.nhs.uk, click "A-Z Index", choose the country, then "Malaria Map" and see whether you will visiting a high risk area. Complete "Malaria risk" below. If you don't have internet access we will need your detailed itinerary.

Name

Daytime phone number

Tick the box(es) which best describe your visit 

Major cities only	Resorts, good hotels	Short trips to rural areas	Backpackers	Tracking, Relief worker
-------------------	----------------------	----------------------------	-------------	-------------------------

Country	Malaria risk	Arrive	Depart					

Continue overleaf if necessary.
